REPLACEMENT LIGHTING

ALFAS

Alfas are about as close as you can get to a full HID lighting system. They are extremely bright and have an "Ultra-White" color. They project about twice the amount of light compared to normal halogen bulbs, without the complicated installation. Simply remove your existing bulb and install the Alfas bulb. They require no modifications to your vehicle, and are much more economical than an HID system.

Their brightness is due to the quality of the materials and combination of gases that goes into manufacturing them.

"Plug and Play" brightness that will not melt or damage your vehicle's existing lighting system.

**SPECTRAS**

Spectras bulbs imitate the wide variety of headlight colors that can be achieved through HID Xenon lighting systems. Colors inside the Spectras line range from the performance themed "Ultra-White" to vibrant Blue. Each color has been perfected with different combinations of gas, bulb finishes and specialized filaments. In addition to color, Spectras provide brightness levels that will meet or exceed the vehicle's factory installed OEM halogen bulbs.

9006	#93426 #93423
9007	#93376 #93373

**VISTAS**

Vistas bulbs are DOT approved and can be legally operated on all roads. They have the same tone of white light that the vehicle's existing OEM bulb has and their brightness level is about 15% higher. They are manufactured with high quality components and will continue functioning for more than 2000 hours.

LIGHTING ACCESSORIES

L.E.D. Ultrabrights

LED Ultrabrights use the brightest, flattest LED's currently available. They offer complete 180° illumination at a brightness that exceeds neon lighting. They are only 1/8" thick and completely flexible for easy, versatile installation anywhere. LED Ultrabrights are 100% waterproof and connect directly to your vehicle's 12V electrical system. LED Ultrabrights are available in Red, Blue and White, and in 4", 8" and 15" lengths.

4" - RED - 93271 8" - RED - 93281 15" - RED - 93281
4" - BLUE - 93273 8" - BLUE - 93283 15" - BLUE - 93293
4" - WHITE - 93276 8" - WHITE - 93286 15" - WHITE - 93296

L.E.D. Eyebrows & Sidewinder

LED Eyebrow and Sidewinder lights use extremely bright and flat LED's mounted on a flexible strip. When applied to a vehicle headlight, they work as daytime running lights. Because of their small size and high brightness, they can be applied in a variety of lighting applications. They are 100% waterproof, and connect directly to your vehicle's 12V electrical system.

LED Eyebrows - WHITE - 93318 BLUE - 93317
(Link up to 5 strips in series)

LED Sidewinders - WHITE - 93320

LED Sidewinders
WHITE - 93320

L.E.D. Truck Bed Light Kits

LED Truck bed Light Kits use the brightest LED lights available. These LED's offer complete 180° illumination at a high brightness level. They are resin coated, 100% waterproof, and connect directly to your vehicle's 12V electrical system. Simple, universal installation on any truck bed.

LED Truck Bed Light Kit - WHITE - 93326 (4 lightstrips)

LED "Flexible" Truck Bed Light Kit - WHITE - 93322 (2 - 15" Strips)
Completely flexible for easy installation. 1/8" thickness makes hiding them easy. Safely link up to 5 strips.

L.E.D. Multi-use Light Kits

Multi-use LED bulbs give your vehicle a unique custom look with three 5mm bulbs, each with 4 feet of wiring and a black finishing clip. LED's clip into locking position for a secure mount and professional finish. Easy to install using a 1/4" perforation, the LED Multi-use can be installed anywhere. They are 100% waterproof. Use them to customize your truck, car, big rig, motorcycle, or even your boat. 12V power source with a 3 Amp in-line fuse (not included). For off-road and decorative use only. Check state and local laws.

LIGHTING ACCESSORIES

L.E.D. T-5 Bulb

Replace existing incandescent bulbs with high intensity true blue LED's. These bulbs replace T-5 bulbs found behind virtually all vehicle dashboards. Add flair to dull instrument panels, side markers, and courtesy lights with vibrant LED color. T-5 LED's never lose their color, are much brighter than stock filament, and take far less power to use, meaning longer bulb life. Installation is easy as plug them in and go.

LED T-5 Bulb - WHITE - 93256 BLUE - 93253

BLUE - 93253

WHITE - 93256

L.E.D. T-10 Bulb

T-10 marker lights use 4 high intensity forward projecting LED's for intense illumination. They fit any existing wedge 194 (T-10) socket on your vehicle. Applications include headlight marker light, side marker lights and license plate lights. The LED T-10 bulb has a life expectancy of around 25,000 to 50,000 hours due to low heat production and minimal power draw. Installation requires 12V power source. Step by step instructions included. For off-road and decorative use only. Check state and local laws.

LED T-10 Bulb - WHITE - 93156 BLUE - 93153

WHITE - 93156

BLUE - 93153

L.E.D. T-10 Bullets

LED T-10 Bullet lights are the most powerful T-10 replacement bulbs to date. They fit any existing wedge 194 (T-10) socket on your vehicle. They provide complete 180° illumination. Applications include headlight marker lights and side marker lights. The LED T-10 bullet has a life expectancy of around 25,000 to 50,000 hours due to low heat production and minimal power draw. Installation requires 12V power source. Step by step instructions included. For off-road and decorative use only. Check state and local laws.

WHITE - 93160

BLUE - 93159

L.E.D. Replacement Bulbs 1156, 1157 & 3157

LED 1156, 1157 and 3157 replacement bulbs use 12 high intensity forward projecting LED's for intense illumination. The color and light output combine perfectly with HID systems. They fit any existing round 1156 and 1157 or wedge 3157 socket on the vehicle. Applications will vary with vehicle make and model. Common applications include running light, tail light, Turn signal and corner light, parking light and side marker, as well as reverse light and license plate light. For off-road and decorative use only. Check state and local laws.

LED Replacement Bulb 1156 - WHITE - 93226 BLUE - 93223

CUT & STICK REPLACEMENT LENS

Temporarily replace broken glass with our "Trim to Fit" mirror kit. Acrylic lens cuts easily with scissors. Fits cars, motorcycles, and many other uses. Peel and stick mounting. This product does not provide the same clarity of glass and is meant as a temporary solution. It is not suitable for convex or concave applications. Sold as single.

- 01100 7" x 10" Cut & Stick Mirror
01200 5" x 8" Cut & Stick Mirror

PLACEMENT SUGGESTIONS

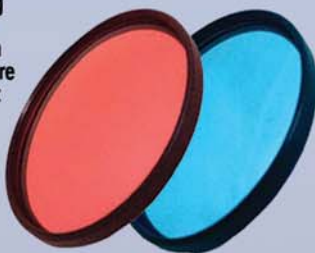

CIPA HotSpot
Placement Suggestion

A HotSpot mirror can be placed anywhere you wish, but are typically placed in the bottom left-hand corner of the OE mirror. The precise placement may vary from one person to next. CIPA recommends placing a piece of folded tape on the back of the HotSpot and sticking it on your OE mirror where you think you might want it. Then, sit in your car and look through the HotSpot. Keep adjusting the placement until it suit your needs. Finally, remove the folded tape, peel the adhesive backing tape off the HotSpot and stick.

TINTED HOTSPOTS

CIPA's round 2" convex tinted HotSpot mirrors. Easily mounts to original factory mirror featuring convenient stick-on mounting. Tinted HotSpots are available in Red or Blue, which help reduce glare from light sources such as sunlight or headlights that may otherwise impair vision to the rear of your vehicle. Sold as a pair.

49111 2" Blue Pair
49112 2" Red Pair

5" CLAMP ON HOTSPOT

CIPA's 5" adjustable chrome convex HotSpot mirror. Easily attaches to your existing mirror bracket with convenient clamp-on mounting. Features a chrome head and a light weight aluminum bracket. Mirror is fully adjustable using a ball and socket design. Accommodates both driver and passenger sides. Best for larger mirrors with bracket arms. Sold as single.

49502 5" Clamp On Chrome

CONVEX WEDGE HOTSPOTS

Unique wedge design adds 30 percent more vision than round convex mirrors. Easily mounts to original factory mirror featuring convenient stick-on mounting. When installing mirror, place thick side of mirror base towards vehicle for increased blind spot visibility. Available in 1 1/2" x 2" and 2 1/2" x 3 3/4". Sold as single.

49002 1 1/2" x 2" Wedge
49702 2 1/2" x 3 3/4" Wedge

ADJUSTABLE HOTSPOTS

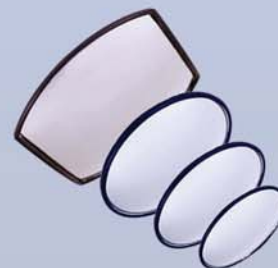

360 degree adjustable spot mirror gives you customized wide angle viewing. Easily mounts to original factory mirror featuring convenient stick-on mounting. Spin right or left to adjust mirror. Great for vehicles with multiple drivers. Available in 2" and 3 3/4". Sold as single.

49104 2" Round Adjustable
49304 3 3/4" Round Adjustable

CONVEX HOTSPOTS

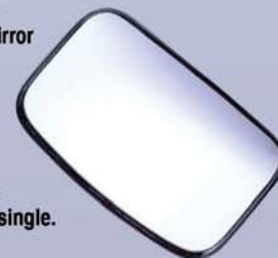

Avoid tricky blind spots when passing or changing lanes with CIPA's convex HotSpot mirrors. Easily mounts to original factory mirror featuring convenient stick-on mounting. Available in multiple sizes. Sold as single.

49102 2" Round Convex
49202 3" Round Convex
49302 3 3/4" Round Convex
49402 4" x 5 1/2" Convex

4" x 8" CLAMP-ON HOTSPOT

Clamp-on 4 x 8 inch HotSpot mirror easily clamps onto your vehicle's mirror bracket, keeping your OE mirror unobstructed and its effectiveness intact. This mirror features a rotating mounting clamp which allows the mirrors position to be adjusted horizontally or vertically. The large convex mirror face provides wide angle viewing for more visibility. Sold as single.

49504 4" x 8" Clamp On Convex

CORNER WEDGE HOTSPOT

CIPA's wedge convex HotSpot mirror easily mounts to factory mirror with convenient stick-on mounting. Available in two sizes. Sold as single.

49403 3 1/4" x 3 1/4" Corner Wedge
49404 2" x 2" Corner Wedge

DUAL VIEW BABY MIRROR

Clips on your visor, or suction to your windshield to keep an eye on your baby, cargo, or backseat passengers. Sold as single.

49606 Dual View Baby Mirror

RV LEVELER

Save time leveling your RV for more important things such as hiking and fishing. The RV Leveler will help you to level your RV in flash, and all by yourself. The hand held remote is compact and will fit in the palm of your hand. The wireless feature allows the base to be left inside the RV while the hand held device can be carried to each leveling point. Red and green LEDs indicate level, if light is red that corner of the RV needs to be adjusted up or down, when the light is green that corner is level. Eliminate the need for a second person while leveling your rig and get an RV Leveler today! Sold as single.

03000 RV Leveler

HITCH BALL COVERS

Full color and weather resistant. Our Hitch Ball Covers are available in unique sets of sportsman's designs. Hitch Ball Covers add custom touch to your vehicle, and protect your hitch ball from rust, mud and corrosion. Each Hitch Ball Cover fits 1-7/8", 2" and 2-5/16" hitch balls and securely fit most hitch balls available. Sold as single.

ADD-A-SIGNAL

Add-A-Signal Stick-On Directional Indicator lights feature super-bright LED bulbs. The stick-on directional indicator is arrow shaped like the ones seen in factory mirrors. With an easy two wire hook up and press on installation, Add-A-Signals are a simple way to increase your safety and improve the appearance of your vehicle. Add-A-Signals are universal and will work on all cars, trucks, vans, SUVs, and RVs. Sold as a Pair.

08800 Add-A-Signal

CUSTOM REARVIEW MIRRORS

Accessorize your vehicle with a custom look. Full-size (10") chrome plastic mirrors easily replace your OE rearview mirror. Mounting bracket included. Sold as single.

- A 32001 10" Skulls Rearview
- B 32003 10" Flames Rearview

FASTHitch MIRROR

The view of the CIPA FastHitch from the interior mirror gives the driver a clear, unobstructed view of the hitch and ball, making hitch alignment a snap and requiring only one person. Slide the mirror arms onto the pickup truck gate, or use the suction cups for mounting on the back of virtually any vehicle! Sold as single.

11955 FastHitch Mirror

STEP HITCH

CIPA's Step Hitch provides better access to your pickup or SUV with a bright red reflective surface for increased safety and visibility. Featuring a non-slip surface, the Step Hitches make it easy to accomplish your tasks safely. Step Hitches are made with durable die-cast rust-resistant aluminum, so they are durable as well as convenient. Installation is as easy as sliding the Step Hitch into any 2 inch trailer hitch receiver tube. Step securely folds up to display reflector surface. 350 pound weight limit. Hitch pin not included. Sold as single.

60050 Step Hitch

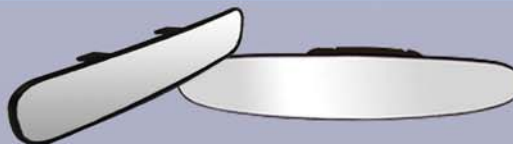

HITCH RECEIVER COVERS

Dress up your vehicle's empty hitch receiver with CIPA's Hitch Bud Receiver Covers. These brass plated and painted rust resistant hitch receiver covers, in your choice of popular designs, are fast and easy to assemble and install. The Hitch Bud Receiver Covers accommodates both recessed and protruding receivers measuring 1.25 inches and 2 inches in size. Each kit comes complete with 2 metal receiver tubes (1.25" & 2") with a black finish, 2 pull pins (for each receiver tube), 3 screws, security padlock and key, foam ring, and receiver cover. Sold as single.

- 60012 Brass Propeller
- 60017 American Flag
